

# ORANGE PEEL GRABS

## MANTSINEN Orange Peel Grabs TECHNICAL SPECIFICATIONS

Heavy-duty  
grabs for hard  
work with tough  
machines.

### ORANGE PEEL GRABS

Mantsinen orange peel grabs are designed for hard work with big heavy machines.

Our unique grab frame design, made of steel plates running from the top all the way to the pivot points of the tines, makes the grab extremely resistant to the repetitive shocks of scrap handling.

Mantsinen orange peel grabs are available with 4 - 6 tines and with either closed, semi-open or open tine form.

Mantsinen range includes orange peel grabs from 0,8 m<sup>3</sup> to 5,0 m<sup>3</sup>. All orange peel grabs are available with both Mantsinen quick coupler systems or fixed rotators.

WITH FIXED ROTATOR

WITH QUICK COUPLER
